designed to isolate and handle radioactive wastes originated from our nuclear weapons program in World War II and the Cold War, which is exactly what sits at the West Lake Landfill. Senator Blunt, Senator McCaskill, Congressman Clay and Congresswoman Wagner need to put the Corps in charge because the Corps is the best at handling sites like West Lake, and people living around the landfill deserve nothing but the best.

Join West Lake Landfill community members and their supports at our federally elected's district offices. Over 2,500 petitions will be dropped off and this question will be asked: Will you put the Army Corps of Engineers in charge of the West Lake Landfill?

All times are 12:00PM.

- **Congressman Clay:** December 4th (Wednesday) 111 S. 10th Street, Ste. 22-444, St. Louis, MO 63102
